

Boston Marathon 2014

BEVERLY FIRE DEPARTMENT LOCAL 1669

After being stopped just a half mile short of the finish line, I am again attempting to complete my first official Marathon. This year, I am running on behalf of *Joey's Team*, and the *Lurie Center for Autism*. Please assist me in raising money to further advance the knowledge of the fundamental causes of Autism and Spectrum Disorders. With your help, the Lurie Center can continue to provide the necessary clinical care and opportunity to participate in clinical research to provide cutting edge treatment options. Thank you for your support.

Fraternally yours,,

Capt. Kevin Smith
Beverly Fire Department

Lurie Center for Autism

The Lurie Center is a multidisciplinary program designed to evaluate and treat children, adolescents and adults with a wide variety of conditions including autism and autism spectrum disorders, Asperger syndrome and developmental delays. It is the clinical arm of the Lurie Center for Autism, which also has research, advocacy and training programs.

Donations can be made to:
